Tallmadge Charter Township

The following Zoning Text Amendment Ordinance was adopted at a meeting of the Tallmadge Charter Township Board held on May 8, 2012.

ORDINANCE NO. 05-08-12-1

ZONING TEXT AMENDMENT ORDINANCE

AN ORDINANCE TO AMEND THE TALLMADGE CHARTER TOWNSHIP ZONING ORDINANCE BY RESTATING THE SIGN REGULATIONS CHAPTER; AND TO PROVIDE FOR AN EFFECTIVE DATE.

THE CHARTER TOWNSHIP OF TALLMADGE, COUNTY OF OTTAWA, AND STATE OF MICHIGAN ORDAINS:

Section 1. Sign Regulations. Chapter 16 of the Tallmadge Charter Township Zoning Ordinance regarding sign regulations shall be restated in its entirety as follows.

CHAPTER 16

SIGN REGULATIONS

SECTION 16.01. PURPOSE AND INTENT; FINDINGS.

- (a) It is the intent of this Chapter to regulate the number, location, physical characteristics, and manner of display of signs in the Township in a manner consistent with the following purposes:
1. To further, protect, and promote the health, safety, and welfare of Township residents, property owners, and visitors;
 2. To protect and enhance the aesthetic appearance of the Township by preventing and reducing visual clutter;
 3. To promote traffic safety by reducing distractions and visual obstructions that are hazardous to motorists, pedestrians, bicyclists, and any others in the area;
 4. To promote public safety by prohibiting signs that are structurally unsafe or poorly maintained;
 5. To promote economic viability and to protect and enhance property values; and
 6. To provide for and protect ample means of communication within the guarantees of the United States and Michigan Constitutions.

(b) Concerning the regulation of signs, the Township makes the following findings.

1. The right to convey a message by a sign must be balanced against the public's right to be free of signs which unreasonably compete for attention, distract drivers and bicyclists and pedestrians, or produce confusion.
2. Sign regulations should afford businesses a reasonable opportunity to communicate.
3. Oversized, projecting, distracting, cluttered or crowded signs can lead to confusion, disorientation and distraction for drivers, bicyclists and pedestrians, and thus endanger public health, safety and welfare. Reasonable limits and restrictions are appropriate for placement, construction, size, type and design of signs in relation to the location of buildings and uses and the availability of other means of communication.
4. Signs which utilize advancements in technology, such as but not limited to projecting illumination from the signs or changing the message of the signs instantaneously or nearly so, pose additional risks of impacting adjacent areas and adversely affecting their environment unless reasonably regulated.
5. On-site signs which utilize newer technologies are found to be different in kind and character from larger off-site signs (i.e., billboards) which utilize newer technologies. Reasonable regulations likely to minimize adverse secondary effects from such on-site signs, thus preserving the character and repose of adjacent areas and protecting property values and reducing traffic hazards, will not sufficiently minimize those adverse secondary effects from such off-site signs because of the size and visibility and nature of those off-site signs which are internally lit and capable of having their messages changed instantaneously or nearly so.

SECTION 16.02. SIGNS PROHIBITED. Any sign not expressly permitted by this Ordinance is prohibited.
